### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art teaches or suggests the claimed invention. Specifically, while Lee et al. generates a roadway model and overlays lane marker information on the model, Lee et al. fails to teach detecting a plurality of lane marker candidate points in a road image, calculating a road model parameter on the basis of the lane marker candidate points, calculating a deviation between a lane marker candidate point and an estimated lane marker candidate point estimated from the road model parameter, and determining whether the road image is employed for detecting the lane marker based on the deviation, as variously required by each of the independent claims. Similarly, while Shirato et al. detects lane marker candidate points and calculates a road model parameter, Shirato et al. fails to teach calculating the deviation between the lane marker candidate point and an estimated lane marker candidate point generated using the road model parameter or determining if the road image can be used to detect the lane marker based on such a deviation. Therefore, the claimed invention is allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-12 are allowed.

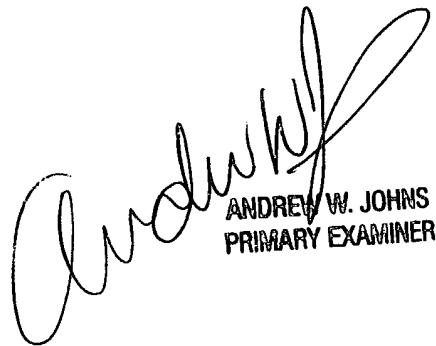

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yeo models a roadway based on lane boundaries extracted from images, as does Kakinami et al. Oike et al. uses models to extract lane marker position information from images.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Johns whose telephone number is (703) 305-4788. The examiner is normally available Monday through Friday, at least during the hours of 9:00 am to 3:00 pm Eastern Time.
